

pegasus orthoses

The foundation for Improved posture, balance and alignment

- Precision-made direct milled CAD-CAM Orthoses.
- Custom made to match the precise needs of the individual patient for better fit and greater control.
- Greater comfort due to the shell flexibility to patient weight ratio.
- Extremely versatile and easily transferable between different pairs of shoes.
- Lifetime guarantee against breakage in normal use.

General foot malfunction can result in chronic and acute pain, such as:

- **Fore-Foot:** Flat foot (low arch), Cavus foot (high arches) calluses, bunions, cramping, metatarsal pain and neuromas.
- **Rear-Foot:** Heel pain/spurs, growing pains, Achilles tendonitis and plantar fasciitis.
- **Gait:** Knee, hip, pelvic and lower back pain, arthritis and poor posture.
